

On budget and on time – Flawless project management with advanced data analytics

## Challenges

Non-unified source of project data

Incomplete overview of cost & schedule metrics

Late detection of construction problems

## Solution

**Quandatics**  
Advanced analytics solution

CENTRALISED database system consolidating historical datasets

PROJECT management portal

MOBILE & WEB interface

CONSTRUCTION KPI monitoring

## Outcome

INSTANT update progress visualization

INSTANT data aggregation

AVAILABLE on multiple devices & multiple access levels

REDUCED response time 1 week > 1 day
